IDEAL DESTINATION FOR MID RANGE HOME BUYERS.

Alok Tyagi, MD of ATN Group, says: “Greater Noida West has huge potential, as it is a 2000-acre planned city with only approved projects and planned infrastructure of roads, hospitals, schools, green belt, educational sector, commercial sectors, and residential sectors. The main road connecting to Noida is 1330 meters wide and the area is likely to have metro connectivity in near future. The entire area will take a proper shape by 2017 and will become a very flourishing city of the Delhi NCR”.
